Education

Ph.D. *Harvard Business School & Department of Economics*, Business Economics 1995
First year honors, Harvard MBA program

Thesis: “Leverage and Restructuring:
Theory and Application to Corporate Control in the 1980s”

M.A. *University of Chicago*, B.A./M.A. Program in Economics 1984

Masters Thesis: “A Theoretical & Empirical Analysis of Dependence in Stock Returns”

B.A. *University of Chicago*, B.A./M.A. Program in Economics 1983

Research Interests

I am interested in theory and empirical work in corporate finance and behavioral finance. My interests include: the relationship between CEO compensation and stock misvaluation, the relationship between bank employee compensation and risky lending practices, corporate governance, myopia, and the incentive effects of high leverage.

Teaching

MBA Executive Education: Advanced Financial Management. Topics include real options, interest rate swaps, and hedging, among others.

Money and Capital Markets. Topics include the workings of financial markets and institutions.

Financial Management of the Firm. An introductory corporate finance course.

Economics course for employed senior executives.

Participated in conducting various business simulations.

Full Time MBA: Corporate Control Topics in Finance. Topics included mergers, takeovers, LBOs, leveraged recapitalizations, corporate oversight, among others.

Corporate Finance.

BSM Executive Education: Managerial Finance.
