ACADEMIC CALENDAR

Please see <http://bschool.pepperdine.edu/students/fulltime/intended>

REGISTRATION AND COURSE ENROLLMENT

1. The Director of Academic Administration will advise each exchange student about course selections and assist with course enrollment. Exchange students applying for the Spring Trimester are strongly encouraged to pre-register for courses because the university will be closed for Winter break until the first day of classes in January.

2. Enrollment for exchange students will be for no more than 2 trimesters. Enrollment for double degree students will be one full year and must begin in the Fall term.
3. Exchange students must enroll in a minimum of 10 units per trimester. Double degree students must enroll in a full load of courses. A full load of courses (16 units) for the term is conducted over a 15-week period. This includes two 7-week course sessions, plus various integration and application activities. A classroom session is generally four hours in duration, once per week.
4. Exchange students may select courses of their choice from the course offerings. Double Degree students must follow the specific curriculum designed for their degree from the Graziadio School. Waiver exams are available to double degree students to pass out of a required course by earning a passing grade on the placement test. Placement tests are not applicable to 1 or 2 term exchange students.
5. Each exchange/double degree student is expected to comply with all requirements of the courses in which he or she enrolls, such as attending class, taking examinations, and participating in class projects and discussions. Exchange/double degree students will be subject to the same academic regulations of the University as regular students.

ACADEMIC CONCENTRATIONS (Double Degree Students)

As degree-seeking students, Double Degree students must complete mandatory course requirements. In most cases, these course requirements do not offer the possibility for double degree students to earn an academic concentration. Students will earn an MBA degree without a concentration or specialization.

EMPLOYMENT OPPORTUNITIES (On Campus)

International students, including exchange and double degree students, are eligible to work on-campus during the term of their stay. (Please see the two sections below regarding internships and employment.) Students can apply for on-campus employment after they arrive at the campus and they can work up to 20 hours per week. For additional information about on-campus employment, please see.

<http://seaver.pepperdine.edu/studentaffairs/careercenter/studentemployment/students/oncampuscheck.htm>

INTERNSHIPS (Curricular Practical Training “CPT”)

Current government laws in the United States *do not allow* international students to participate in an internship unless it is a requirement of the student’s degree program in the United States. Most exchange and double degree programs do not require an internship. Volunteer work (work for no pay) is also considered an internship and is not allowed unless it is a required part of the student’s academic degree program.

POST-GRADUATION EMPLOYMENT (Optional Practical Training “OPT”)

An international student who holds an F-1 (student) visa and who has completed an academic year of coursework may be eligible to work in his/her concentration (business), full-time, in the United States to gain practical work experience. Students interested in pursuing this option must meet with the Pepperdine Office of International Student Services soon after their arrival at Pepperdine to begin the registration process for OPT.

Certain immunizations are required of students planning to begin studies at Pepperdine University. Please see <http://bschool.pepperdine.edu/programs/global/is/#immunize> for additional information. Please provide documentation of your immunizations upon your arrival at Pepperdine. For your convenience, the required immunizations will also be available to you through the Pepperdine University Health Center.

VISA

Upon acceptance, Pepperdine will send an I-20 form to the student which is needed to apply for a student visa. Exchange/double degree students will be responsible for making their own arrangements to obtain a visa. It is important for students to begin the visa process early and allot a generous amount of time because this process can be lengthy.
