Faculty Recommendation for Student Destination Placement in Study Abroad

Recommendation for _____ (Student Name)

Submitted by: _____ (Faculty Name) _____ (Signature)

MBA students at the Graziadio School have the option to spend one trimester of study in regular MBA-level courses at one of our partner universities overseas. Please evaluate this student for this important opportunity.

The ideal candidate for the MBA One-Trimester Study Abroad is one who will best represent Pepperdine at one of our partner universities. Destination placements are based on: GPA, GMAT, faculty recommendation, interview, and essay. All placements must be approved by members of the Full-Time MBA Program Committee.

Strongly Recommend

This student is not only outstanding academically, but, also exhibits strong leadership skills, participates enthusiastically in class, has strong communication skills, and interacts with all students, both international and domestic.

Recommend

This student, though not necessarily the most outstanding in class, is capable and successful academically and as an active participant and team member in class.

Recommend with reservations

This student may not be successful in a foreign placement and/or his/her representing Pepperdine at one of our partner schools is of concern.

Do not recommend

This student would not make a good representative for Pepperdine.
