

Unlock the Science of Extraordinary Leadership Performance with an

EXECUTIVE CERTIFICATE IN *Applied Neuroleadership.*

Program Dates:
September 15 - March 27, 2014

**Climbing the corporate ladder is more difficult than ever.
Rise above the pack and gain competitive advantage.**

In a world with greater demands, less time and more distractions, tapping into the potential of your brain and mind is the new competitive edge. Fewer than 1% of leaders are optimizing the brain-mind connection for extraordinary performance. The Executive Certificate in Applied Neuroleadership teaches you about the brain and mind to unlock your untapped leadership capacity.

With access to unmatched intellectual content, this exciting new education program blends face-to-face and virtual learning experiences, facilitated by award-winning faculty and neuroscientists from both Pepperdine University's Organization Development Program and David Rock's NeuroLeadership Institute.

Join us for a complimentary webinar with Dr. Terri Egan (Pepperdine) to learn more about the program.

Los Angeles: 8/13 @ 5pm

New York: 8/13 @ 8pm
